Fleet Pricing (each)	\$25.00	\$23.00	\$19.00	\$17.00	\$16.50	\$16.00	\$15.50

Information

Installs in less than 10 seconds!

Anti-Siphons are guaranteed for the life of the fuel tank they are installed in.

They do not restrict fueling and there is no splash-back.

They cannot be broken out or taken out by fuel thieves.

Patented and quality built in the USA with over 450,000 in use!

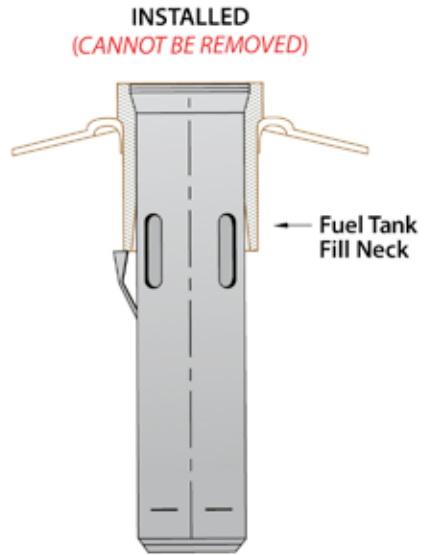

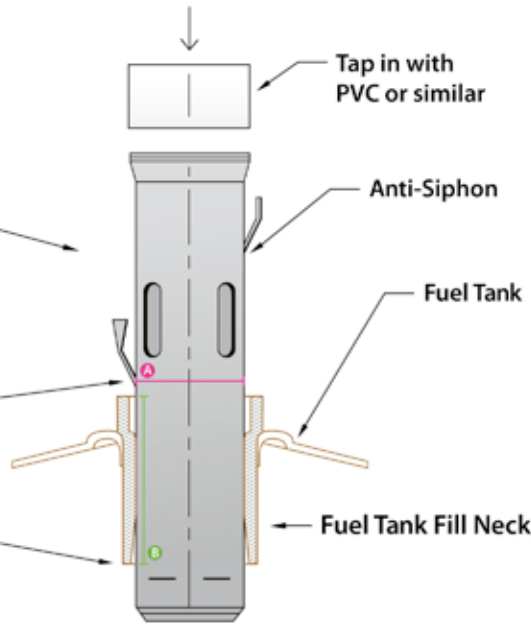

Part No. 25-675, 25-95 & 225-95 are for Heavy-Duty Truck Diesel Fuel Tank Applications.

Part No. 187-75 & 2-7 are for Medium-Duty Truck Diesel Fuel Tank Applications.

Measurements are from the **INSIDE DIAMETER (ID)** of the fuel tank neck. A measurement of the ID of the fuel tanks is always advised. Freightliner Class 8 are 2 1/4" ID. Volvo, Mack, and International are either 2.5" or 3". Medium Duty Class 7 Mack & International are usually 1 7/8" ID. Freightliner are usually 2" ID. Reefer tanks are 1 7/8" ID.

**There are no Anti-Siphons made for 4" fuel tank necks. Pre 1996 fuel tank necks are not guaranteed to be compatible to Anti-Siphons as sizes vary. Always measure these models as many are 4".*

Measurements *to determine type of Anti-Siphon*

A **INSIDE DIAMETER**
of Fuel Tank Fill Neck in Inches

B **LENGTH**
of Fuel Tank Fill Neck in Inches

Truck Brand/s _____

Truck Model/s _____

Year of Rig/s _____

For standard Anti-Siphon models or for any other Brand and Year of Truck Model, if there is any question as to which Anti Siphon will fit, it is always advantageous to measure the **A** **INSIDE DIAMETER** of the Fuel Tank Fill Neck (in inches) and the **B** **LENGTH** of the Fuel Tank Fill Neck (in inches). This will allow us to determine the correct Anti-Siphon for your Fuel Tank.
